

## Status of Home and Community Care Block Grant (HCCBG) Services for Older Adults

To meet requests of federal and state officials, the Senior Tar Heel Legislature, our partners and stakeholders, the North Carolina Division of Aging and Adult Services (DAAS) has surveyed the statewide network of Home and Community Care Block Grant (HCCBG) providers to assess service needs and learn about issues facing the service delivery system. DAAS has surveyed the network six times since February 2009, most recently in March 2014. Statewide 315 providers were contacted, 254 responded (81%).

The Albermale Commission, Region R serves 10 counties: Camden, Chowan, Currituck, Dare, Gates, Hyde, Pasquotank, Perquimans, Tyrrel, and Washington.

37 of the 38 county-level HCCBG providers responded, for a response rate of 97%.

## Results

80% of the Information and Assistance providers reported an increase in service requests; 40% said that community resources that they can refer have decreased

50% of the Senior Centers report an increased demand for programs and services

72 seniors were reportedly waiting for home and community services; when projecting responses to 100%, there was an estimated number of 120 individuals on the waiting list.

Number of seniors on the waiting list by service

Service	# Waiting
In-Home Aide	21
Home-Delivered Meals	15
Care Management	13
Health Promotion/Disease Prevention	13
Group Respite	10

What some Region R providers are doing to promote efficiencies and meet challenges:

In-Home Aide: 64% are prioritizing applicants; 55% are reassessing clients to identify those whose services can be reduced or eliminated; 64% cap the amount of service individuals can use

Housing & Home Improvement: 100% are prioritizing applicants; 100% are using volunteers to help assist

Home-Delivered Meals: 20% are prioritizing applicants according to the need for service

Care Management: 100% are prioritizing applicants according to specific need for service; 100% are reassessing to identify those clients whose services can be terminated or reduced

Current challenges regarding funding and volunteerism

60% said that the number of volunteers have gotten smaller; 70% said the number of hours volunteers can contribute has decreased

22% said that consumer contributions have decreased

**About the Home and Community Care Block Grant**

Established in 1992 under NCGS 143B-181.1(a)(11), the HCCBG was devised to provide a "common funding stream" for a comprehensive and coordinated system of home and community-based services and opportunities for older adults. HCCBG services are available to people age 60 and older, although the "average" client is nearly 80 and the program targets individuals who are socially and economically needy.

HCCBG is administered through the NC Division of Aging and Adult Services and the Area Agencies on Aging. It combines federal and state funds with a local match, and it gives county commissioners discretion in budgeting and administering aging funds.
